

OUR ONLINE BASS SURVEY IS NOW OPEN!

SEA BASS FISHERIES CONSERVATION UK

DO YOU HAVE CONCERNS ABOUT SEA BASS IN YOUR REGION?

All fishers, both recreational and commercial across the UK (excluding Scotland) are invited to take part in this online survey.

SBFC UK is a project tasked with describing sea bass fisheries on a regional level to help improve future sea bass conservation and management.

This survey allows us to complete that description by gathering information directly from you, we will collate this evidence to create an accurate picture of regional sea bass fisheries in the UK. We also want to underline where data gaps are to help prioritise our science to best suit the needs of fishers in each region. We hope to address these data gaps through fisher-led data collection and collaborations, please email us for more details.

DO YOU WANT TO HAVE YOR SAY?

Find our survey here:

<https://tinyurl.com/SBFC-UK-Bass-Survey-2018>

OR...

Do it on your smartphone/tablet – simply open your camera and put this QR code in the frame and click the pop-up message to be taken straight to the website!

This survey closes on the **31st December 2018** at **23:59**.
Thank you for your participation!
