MARK**

# What is CLUBMARK?

**Clubmark** is a quality accreditation scheme, first developed by Sport England in 2002, to recognise sports clubs that have a non-discriminatory membership policy. **Clubmark** provides a quality service to all their members through a set of consistent, accepted and minimum operating standards.

Since 2006, angling clubs have had the opportunity to become **Clubmark** accredited. Almost all those that have done so have reported that they have received considerable benefits in terms of both increased membership and easier access to grants and other external funding streams.

So if your club hasn't got a long membership waiting list why not give serious consideration to finding out more about **Clubmark** and what your club needs to do to become accredited.
